PROFESSIONAL PROFILE

Junior developer with 3 years of broad software development experience. Recently introduced to the Guidewire platform through a short-term contract engagement involving PolicyCenter support tasks. Eager to grow Guidewire skills further but currently building foundational knowledge in configuration and Gosu programming.

TECHNICAL SKILLS

- Guidewire PolicyCenter — basic configuration support (less than 1 year)
- Java, JavaScript, Python
- Basic SQL (MySQL, PostgreSQL)
- HTML, CSS, React (front-end development)
- Git, GitHub, JIRA
- Manual testing and defect logging

WORK EXPERIENCE

Guidewire Support Developer (Contract) | Sep 2023 – Present

Steadfast Group — Brisbane, QLD

- Assisted senior developers with minor PolicyCenter configuration changes under supervision
- Logged and tracked defects during PolicyCenter UAT phase
- Created basic test scripts and participated in regression testing activities
- No independent Gosu development undertaken — tasks limited to supervised configuration

Junior Software Developer | *Jan 2021 – Aug 2023*

StartUp Tech Pty Ltd — Brisbane, QLD

- Developed front-end React components for a SaaS product
- Wrote Python scripts for data transformation and reporting
- Supported backend Java REST API development
- No insurance or Guidewire domain experience during this role

EDUCATION & CERTIFICATIONS

Bachelor of Information Systems — Queensland University of Technology, 2020

No Guidewire certifications held
